## IF YOU LOVE GLADIOLUS You Will Want This Great Book

ORGEOUS, beautiful, and easy to grow, the Gladiolus is king of the summer garden, counting his admirers by the million. Thousands in New England, and hundreds in other parts of this country and throughout the world look forward each year to a great event—the publishing of the annual Year Book of the New England Gladiolus Society, the largest and most important publication issued concerning Gladiolus, their progress, and their cultivation.

The 1934 edition of this famous Year Book will be ready about February 1. A copy of it will be sent to every paid-up

member of the Society.

A feature of the 1934 Year Book will be a comprehensive article on Gladiolus of New England Origination, by Coit O. Colburn. This article will be invaluable to gladiolus lovers everywhere who are interested in learning the individual merits of more than 100 glads first produced in New

England gardens, some of which have already attained first rank in the gladiolus

"I Catch My First Glad," by Harry R. O'Brien, "The Plain Dirt Gardener" and other informative and instructive articles by such authorities as Frank O. Shepardson, Eugene N. Fischer, A. A. Arenius, Percy Symons, Wm. Edwin Clark, and Edgar Anderson.

News of recent introductions, methods of cultivation, fertilizers, hybridizing, reports of glad shows, discussion of proposed new classifications, a valuable correlation of hundreds of Ridgeway's standard colors with the Fischer Color Chart, compiled by F. M. Bibby; reports of gladiolus developments in foreign lands, and many other notable features will be included.

The 1934 Year Book will be bound in strong and handsome, flexible cloth covers.

Every garden lover will want it.

#### Book For 1934 G. Year

### If You Love Color You'll Want This Famous Chart

Eugene N. Fischer, artist and world-famous hybridizer of gladiolus, has produced the most beautiful, most easily understood, and most practical color chart for the use of flower lovers, and all others who use or study color. This chart has been reproduced in full color showing 108 distinct color values—for the New

England Gladiolus Society, and has created a sensation throughout the world among those interested in color. Authorities say "of great value," "a great benefit to exhibitors," "schematic arrangement excellent," "just the help needed," "the foremost work of its kind."

#### SPECIAL OFFER

### YOUR FAVORITE VARIETY

Of course if you are a real 'GLAD' Fan their are certain varieties which you prefer and have always wished you could have more of in your garden.

HERE'S THE OPPORTUNITY TO REALIZE YOUR WISH. We will make up an assortment of different sizes, thus giving a longer season of bloom, of any one of the varieties named below for \$1.00. We are not specifying the quantity of each size but each order will contain a generous number of each size from ½ inch up and we know you will be pleasantly surprised. If you are not more than satisfied let us know so we can refund your money. Remember that in 2 years these will all be top size bulbs which if purchased then would cost several times more. You will not be disappointed for we have found generosity to be one of the greatest business assets.

"Hedgewood Gardens 'Glads' do their own bragging."

That's what our customers tell us, so we are not taking the space to illustrate or list the prizes, medals, blue ribbons, etc., that we have been awarded for Hedgewood Gardens Gladiolus. Nor could we even attempt to estimate those awarded to our customers. If you have visited any of our displays you know something about the quality of our blooms.

Plant some of our bulbs this year and win for yourself prizes and blue ribbons at your local show, county or state fair or Gladiolus show.

Our 'Glad' stock is grown on new ground each year from bulblets and has just reached the peppy stage where it is ready to make fine blooms for you. Our prices are as low as possible in keeping with both quality and service.

Guaranteed disease free (Inspection Cert. No. 1161) true to name and sure to

please our customers.

Prices listed per dozen for large size bulbs, (except where noted 'EA' each).

Where stock is available Medium sizes will be furnished at one-half price and small at one fourth.

Orders of \$2.00 or over will be delivered prepaid, Minimum item, 20¢ desired. Six of any variety at the dozen rate, 25 at the hundred price. Hundred price 7 times the dozen. Write for quotation on large quantities.

Cultural directions accompany each order.

We show in the first column the approximate blooming days for large size bulbs planted here in May. Earlier planting and smaller bulbs take a longer season to bloom. E-Early less than 70 days, EM-Early midseason between 70-80 days, M-Midseason 80-90 days, LM-Late midseason 90-100 days, L-Late over 100 days.
